

ARSH KAUSHIK | Product Designer

NY, NY | +1 (669) 251-4609 | arshkaushik21@gmail.com | arshkaushik.com (Portfolio) | [LinkedIn](#) | [GitHub](#)

EXPERIENCE

Center for Digital Experiences at Pratt, Design & Research | *Design Consultancy*

NY, NY | Aug 2025 – Present

- Improved search & discovery of the United Nations Digital Library by conducting eye-tracking studies and system usability score analysis, resulting in an anticipated **20% less friction** in advanced search queries.
- Led user research for MedLaunch Concept to identify friction points in a survey orchestration platform for hospitals, delivering findings that informed the redesign roadmap.

Precisely, Product Designer | *Enterprise, B2B SaaS, Data Integrity*

India | April 2024 – Aug 2025

- Co-led a shift from traditional Figma handoff cycles to direct code implementation using Copilot & Claude Code, **reducing design-to-ship time by ~30%** across the React, Tailwind, & Shadcn stack.
- Reduced designers' workload by 70% and UI engineers' by 50% by establishing templization standards for new data connectors setups, and streamlining the design-development process, **saving ~15% of team time**.
- Led end-to-end redesign of datasource addition and monitoring flows by running contextual inquiry to surface friction points, **cutting support tickets by 50%**, and faster data configuration, across 3 shipped features.
- Designed a version management and dependency monitoring interface for service agent upgrade and rollback workflows, replacing CLI-based processes for Data Stewards and **reducing errors by 80%**.
- Co-managed a team of UI interns to address design system debt, **clearing ~6% debt monthly** through a prioritized triage process.

DWA, Product Designer | *Design Consultancy*

India | April 2023 – April 2024

- Drove design process and UX strategy for YC-backed and early-stage startups, drafting design-development workflows that **reduced revision cycles by ~40%** and consulted on AI product direction.

Newton School, Product Design Intern | *EdTech, B2C*

India | Jan – March 2023

- Reduced avg. **lecture browsing time by 67%** (from 55 to 18 sec), and reduced support queries by 50%, by redesigning the lecture repository through analyzing students' interaction patterns and addressing course piracy.
- Led the art direction for the Goa Bootcamp launch interaction, unveiled by the Chief Minister before 5,000 attendees.
- Designed 130+ Prism icons** for the Gravity design system, addressing context-specific visual clarity for tier-2/3 city students.

Scaler by InterviewBit, Product Design Intern | *EdTech, B2C*

India | Feb – May 2022

- Reduced entrance test drop-off from 80% to 25% by validating a poor UX hypothesis with the CX and growth teams and designing a streamlined flow with visual refinements, resulting in lower interaction costs. **Ranked 3rd in the office hackathon**.
- Led visual audits of the design system for US and India landing pages, fixing information architecture and redesigning reusable components, resulting in an 18% increase in program admission queries.

Zomato (Fitso), Product Design Intern | *SportsTech, B2C*

India | Sep 2021 – Jan 2022

- Drove **\$80K addition in monthly revenue** by improving the booking and post-booking experience, leading to a 31.8% decline in cancellations and a 40% growth in membership conversion rate.
- Reduced onboarding drop-off rate from 60% to 20% by implementing a consistent visual design language and a humane conversational tone, resulting in faster sign-ups and a **27% increase in user acquisition**.

LEADERSHIP

Product & Design Lead, Amazon Music x Pratt

NY, NY | Feb – March 2026

- Led a 4-person team to concept and pitch 'Set It & Forget It', a **real-time AI-powered in-car listening experience** for Amazon Music, addressing brand recall and user acquisition through a differentiated strategy, bypassing direct market competition.

Product & Development, Amphy

India | Aug 2022 – May 2023

- Led a 4-person team to design and build 'Amphy', a live podcasting and social media platform, reducing podcast creation time by ~50%. **Awarded Best CS Final Project**, Class of 2023.

EDUCATION

MS Information Experience Design (HCI), Pratt Institute

NY, NY | 2025 – 2027

B.Tech. Computer Science & Engineering (Data Science & AI), SRM University

India | 2019 – 2023

SKILLS

Design: Product Thinking, Experience Strategy, Interaction Design, Information Architecture, Visual Design, Rapid Prototyping, Design Systems, Iconography, Human-AI Interaction Design, Motion Design, UX Writing, Conversation Design

Research: Usability Testing, Contextual Inquiry, Journey Mapping, Personas, Competitor Analysis, UX Audits, A-B Testing, Mixed Methods Research

Tools: Figma, FigJam, Framer, Jira, Google Analytics, MixPanel, CleverTap, Heap, Voiceflow, Userlytics, Rive, Cursor, Storybook

Technical: HTML, CSS/SCSS, JavaScript, React.js, Next.js, TypeScript, Python, MCP, Copilot, Claude Code, Git/GitHub, Tailwind, Shadcn, Storybook
